Start point A on 15<sup>th</sup> is in the countryside to the west, close to the border with Myanmar. The A to B trail uses the only pedestrian bridge across the main Thai North-South highway for many kilometres. You must cross the main highway using this bridge as the highway is dangerous. You can run straight into the sea at the east finish point B in a fishing village, we have arranged for a freshwater hose to clean up after your run / swim. The circle will be held on the beach with nibbles and there will be busses back to the Had Thong hotel.

Walkers who want to walk the full trail meet up at the rear of the Had Thong Hotel for an early **1pm departure**. After a 30-minute bus ride the long walkers will be dropped off. Please do not be late.
